**TEST COMMENTS:** *Planting conditions were very good. Seedling emergence was outstanding. Plants were 45 inches in height or better which resulted in some lodging issues. Plants were well dried down at harvest. Mark and Keith, our host farmers, both commented that yields have been good this season, despite seeing some aborted seeds in pods. Medium sized seed is was typical here.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
