Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$3.01; non-GMO = \$3.01

Test Comments: *Very nice looking plot. Soil was mellow and conditions were dry at planting. Received rain after planting that made emergence very good. Around the first week of July, the site received a rain which helped the drought-stressed fields. At harvest, plants were healthy and strong with no lodging issues. Ears were well pollinated and girthy. No weed control issues.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
